Internet vs Participation? Awareness?

What about the organized youth and environmental risks? National Youth Parliament (Youth Councils)

- Mostly working on awareness raising
 - Issues differ from basic awareness raising on pollution to lobbying for changing energy investment planning to impacts of tourism, disaster preparedness to combat with desertification...
 - Mostly positive about the openness of the municipal council and decision makers
- ** Not so much initiatives of green jobs or greening the economy
 **** Lack of resources, innovation and R&D support.

Why youth and governance matters?
